

The ultimate professional dictation solution

DS-5000

With the DS-5000 Voice Recorder and AS-5000 Transcription Kit, Olympus introduces two new products for across-the-board professional dictation requirements. These top-of-the-range devices are complemented by the all-new DSS Player Pro software which provides added power and versatility to streamline workflow for more efficiency.

With a focus on flexibility, security, simplicity and reliability, the DS-5000 incorporates numerous state-of-the-art features to boost the productivity of dictation-users in all types of small, medium and even large businesses. This is further enhanced when used in conjunction with the AS-5000 Transcription Kit. Dictation and transcription requirements are therefore seamlessly integrated into the daily office workflow.

The optional AS-5000 Transcription Kit, besides the footswitch and headset also contains the DSS Player Pro software transcription module, which makes it easier for the secretary to type up the recordings.
